

Powered Rackmount Cage for 16 extenders

Back view

Front view

PRC-16-205 is a rack mount cage accessory enclosing up to 16x VINX-120-HDMI-ENC or VINX-110-HDMI-DEC and other, similar size devices in any combination, also providing power source for every installed device. Reliable, safe and secure operation is assured by numerous built-in protections against short circuits and overloads.

Features:

- 3RU size rack mount cage
- Universal full range AC input with a standard C14 socket
- Protections: Short circuit and Overload
- Users can easily install and remove VINX devices and mix encoders and decoders in any combination
- VINX units can also be installed in the PRC-16-205 reversed
- Silent front to rear cooling system with temperature control
- Powering port protection: in case a power port fails, the rest of the installed VINX units keep on working
- Powered Rack Cage with built-in power supply for 16 extenders
- Makes installation easy and clean for 16 small extenders in rack
- Multiple mounting options to suit different rack cabling layouts
- Reliable cable management with supplied cable guide rails
- 3 years warranty
